Movex[®]
PRODUCT OVERVIEW

Movex®

Our **HISTORY**,
the basis for our **FUTURE**.

Movex® is a dynamic and flexible business reality that have been active in the industrial production for over ten years and is reaching market leadership as a reliable and precise supplier, planning the future without losing sight of its history and its values.

In the headquarters **Movex®** designs and manufactures high quality components for the beverage, packaging, food, logistics, automotive and automation industries.

Movex® meets your needs for standard and custom made products in a dynamic and responsive way, ensuring the best performance to satisfy our customers requirements.

A top service level is the goal of a qualified Engineering and Sales team with the objective of presenting **Movex®** as a supplier of excellence to all clients.

Through a distribution/network which spans the globe, **Movex®** offers technical support and a careful after-sales service, always at your disposal.

MISSION

Creating value through development of ideas, supporting our partners with professionalism, flexibility and effectiveness.

VISION

Reaching market leadership as a reliable and precise supplier. Planning the future without losing sight of our history and the values that allow our growth.

Sideflex Chain

Special Chain

SPROCKETS, IDLER WHEELS and TURNING DISKS

Belt sprockets

Chains sprockets

SS Guide

Idler wheels

Turning Disk

Movex provides many different types of sprockets and idler wheels, machined or molded, split or solid, ideal to cover all application needs.

Moreover, specifically designed for side flexing chains, Movex provides also machined and molded turning disks.

CONVEYOR COMPONENTS

CORNER & STRAIGHT TRACKS - MAGNETIC, TAB and BEVEL

Designed to offer better conveyor performance, Movex corner tracks are produced with computer controlled machines with a smooth chain guide surface and are suitable for chains, and modular belts in different materials and designs:

MAGNETIC
Corner tracks

TAB
Corner tracks

BEVEL
Corner tracks

STRAIGHT
Tracks

Available in **BluLub®** / **C Abrasive** / **UHMW-PE** / **RS**. Curves

Depending on application conditions various curve materials are suitable.

LEVELING FEET

EXTRUDED PROFILES

Available in **BluLub®** / **Ti-White®** / **UHMW-PE**

This is a little selection of extruded profiles available, find out the complete range on our general catalog or visit our website.

BluLub® & PFX Your powerful dry running combination.

BluLub® is the Movex performance compounded Ultra High Molecular Weight Polyethylene material, with the latest generation of solid lubricants, ideal to produce all kind of sliding parts (extruded profiles, machined curves, nosebars).

PFX is the plastic compound developed for chains and belts to run with limited lubrication and/or in dry applications where the demands are extreme concerning speed, performance & efficiency.

The combination of **BluLub®** and **PFX** is the perfect choice to achieve a sustainable dry running line, saving water, energy and cost, minimizing power consumption and improving environmental safety, as well as hygienic aspects.
